**Bald Knob Public Schools in Arkansas Go Live with Atrium**

Moving to Atrium was a very positive move for the schools in Bald Knob. They migrated to a 100% web-based product which offers their students and teachers the opportunity to access the library from home. The high school, middle school, and elementary school were excited to have better access to the library.

Atrium supports the mission statement for Bald Knob:

“Bald Knob High School, in cooperation with the home and community, will provide the opportunity and encouragement for each student to meet his/her educational needs. We will make available to our students the tools necessary to achieve the highest levels of success in current and future, academic, artistic, athletic, and technical challenges. We will accept each of our students as a unique individual and encourage them toward the development of social, emotional, and civic accountability, enabling each to contribute positively to society.”

\*\*\*\*\*

Book Systems Inc. provides affordable feature-rich library and textbook software that delivers solutions to libraries and schools of all sizes. Our software is suited to fit the needs of librarians in a technology-driven world, while still being easy to learn and user-friendly. Atrium offers the graphical circulation desk, quick cataloging, MARC editing, analysis, easy-to-create reports, and theme choices. There are also additional modules available for serials and acquisitions. Our software provides more features and demands fewer resources. Book Systems is dedicated to quality and customer satisfaction and has implemented library automation solutions in thousands of libraries around the world. The company’s philosophy is very simple: create quality products; test them with input and direction from librarians in the field, and back them up with renowned customer service and support. Further information is available at [www.booksys.com](http://www.booksys.com).
